

## Website Packages go global...

Our 'out of the box' website packages have been designed for new and existing business who do not want to spend a lot of money on their website yet still want a great looking design. Based on a tried and tested layout, this solution can be customised to meet the needs of most businesses to ensure they have a unique presence on the internet – all for an exceptionally low price!

This solution is ideal for

- New business startups
- Small one or two man businesses
- Shops, home/office workers, tradesman etc
- Existing businesses who do not have a website but need one in a hurry
- Existing businesses who have a website but want to upgrade to a solution that they can update themselves.

Features and benefits

- Pre-defined packages to meet your business needs
- Tried and tested layout
- 200 MB hosting account
- Free 1 time only submission to all major search engines
- Basic and advanced website statistics

All custom Website designs we build are guaranteed W3C standard compliant, cross browser compatible and optimized for load time and created using cutting-edge tableless CSS programming. The quality combined with the price make these Website design deals unbeatable. We offer pre-defined Basic Website Design Package, Business Website Design Packages and Corporate Website Design Packages. Each Website design is unique and tailor-made for our clients.
